HubIT
TECHNOLOGY WITH AND FOR SOCIETY

HubIT Newsletter
Newsletter #4 – August 2019

Are you a **designer** or a **developer** or someone interested in **social sciences**? Do you like programming and coding? Do you feel it's important to **make ICT closer to social needs**? Would you like to work together with various experts on **ground-breaking social innovations**?

Are you up for a challenge?

Join HubIT

"DESIGNING FOR THE GOOD OF SOCIETY"

7 events
from October 2019 to June 2020

3 DESIGNATHONS
for the resilient and tenacious!

Designathons are design sprint-like event, where ICT developers, social scientists, marketing experts and users, will form multidisciplinary teams and work together for 48 hours on ICT projects that consider relevant societal challenges and/or include responsible and inclusive aspects. Eventually, a series of demonstrations will be conducted by each team and evaluated by a jury.

Vilnius - Lithuania	Bratislava – Slovakia	Berlin – Germany
04-06.10.2019/2 days Participants: 50	25-27.11.2019/2 days Participants: 50	27-29.03.2020 (tbc)/2 days Participants: 50

3 MAKER LABS
for the crafty, creative and with outside-the-box vision!

By putting participants from ICT and social sciences together in a concrete situation of practical collaboration, the aim of Maker Labs is to foster ICT co-creation processes. Through the process of making, these shared experimental activities are expected to make participants become aware of and reflect on the importance of the social issues in technological innovation processes.

Berlin – Germany	Bratislava – Slovakia	Tel-Aviv – Israel
TBC/2.5 days Participants: 20	TBC/2.5 days Participants: 20	TBC/2.5 days Participants: 20

1 COMMON GROUND CAMP
for the toughest and outdoorsy!

Organised as a 3-days retreat in a remote location, the Common Ground Camp aims to initiate new inter and trans-disciplinary collaborations and support the development of new ICT project ideas subject to financing within future H2020 calls, other public or private funding. For that purpose, participants will have the opportunity to work in a supportive environment facilitated by professional experts relying on non-conventional and participatory approaches (game-based approaches, experiential learning, creativity-supporting tools, etc.).

Bratislava – Slovakia — 3 days, Participants: 40

Don't miss this chance to travel to Europe with travel and accommodation expenses included* and to be part of the revolution of making responsible ICT a reality!
*up to 500,00€

But that's not only it:

The most promising ideas will win the chance to participate in an accelerator program and will be offered promotion, mentoring and support for the further development of their ideas.
